About iNORéA

Founded in April 2011, iNORéA specializes in the e-commerce sector of electrical components and industrial automation solutions.

We manage the supply chain to deliver your product/solution 'just in time': stock holding, product availability, tracking information.

iNORéA is based in France with a network of distributors and warehouse around Europe.

We offer products packaged in large volume at attractive prices.

If you join the iNORéA network of distributors you will enter the field of automation and industrial electricity.

We attract the new customer using a variety of advertising and marketing.

You can find all advantages for partners on our website www.inorea.com under «Partner Advantages».

iNORéA: the network of electrical component experts and industrial automation solutions.

ELECTRICAL WIRING SOLUTIONS

ELECTRICAL COMPOUND BUTTONS

Range of compound buttons available: different colors, functions (push, rotary, emergency stop, light...)
Sold in batches of 10.

ELECTRICAL BUTTON BOXES

Button boxes: emergency stop, self-assembly.
Sold in batches of 5.

MULTIPOINTS CONNECTORS

Multipoint electric connectors for production machines: 3, 4, 10, 16, 24 or 32 connections.
Sold in batches.

ACCESSORY KITS

All the necessary accessories for wiring your installations at your fingertips: cable glands, DIN rail terminal, cross connector, cable terminals.

FREQUENCY INVERTERS & ACCESSORIES

SINGLE & THREE PHASE INVERTERS

Range of frequency inverters which allow to control the rotation speed of an asynchronous motor.

- Single 220V to 3 phases 220V from 0.4kW to 5.5kW
- 3 phases 400V to 3 phases 400V from 0.4kW to 160kW

INVERTER ENCLOSURE

- Electrical box designed for a use based on VFR091 single-phase inverter.

- Electrical box designed for a use based on VFR091 three-phase inverter.

Range of IP55 enclosure for a mobile use of frequency inverter.

WIRELESS INVERTERS

For controlling frequency inverter remotely and setting speed and direction.

REMOTE CONTROL

Range of remote controls for remote management; suitable for any type of frequency inverter.

BRAKE RESISTOR

Brake resistor to dissipate energy in the event that a motor becomes a current generator.

Brake resistor for frequency inverter.

AC OUT FILTER

Harmonic filter designed to prevent electromagnetic interference from drives.

MOTOR STARTER BOXES

SSTR

Soft starter allows to start motors without current overload.

ENCLOSURE SSTR

Range of IP55 enclosures for a mobile use.

PUMPING MANAGEMENT

Box for pump management.

ELECTRICAL MOTOR REVERSER

Change the direction of rotation of a single phase motor.

MOTOR BOXES

Start a motor (direct, delta star, reversal of direction of rotation...) with thermal protection.

POWER MANAGEMENT SOLUTIONS

SOURCE INVERTER

Choose and switch the power source: manual or automatic.

TECPOWERGEN CONVERTER

Transform the 220V single phase into a 400V three phase up to 3kW 5A 380V.

DIRECT POWER SUPPLY

Range of direct power supplies 12 VDC and 24 VDC. Sold in batches of 10.

TEST SUPPLY

Easily access to 12VDC and 24VDC with 220V in order to test products.

PROCESS MANAGEMENT SOLUTIONS

SOLID STATE RELAY

Range of solid state relays and tension controls: solid state voltage regulator and radiator for solid state relay. Sold in batches of 5.

REGULATOR

Control the output tension using a potentiometer or a variable resistance. Sold in batches of 5.

TEXTING CONTROL

Switch on/off a power source by SMS.

DATA LOGGING

Recorder for supervising electrical network: harmonic, intensity, voltage.

LINEAR AXES

ALN

Precise positioning and motion of loads with high technical characteristics and performance.

ELN

For small loads, axis kit precise positioning of loads and motion.

DLN

DLN axis is a compact axis (45x45mm) with high technical characteristics and performance.

INTERNATIONAL SHIPPING

Based in France, we deliver you everywhere in the world!
